tc bathrooms bears the BSI Kitemark. This is your assurance that samples are regularly subjected to rigorous, independent testing to ensure that they comply with stringent standards for safety, product performance and reliability. In addition, the Kitemark also means that the quality systems of tc bathrooms are systematically assessed. The Kitemark is therefore tc bathrooms' commitment towards maintaining the highest possible standards.

August 2011 Brochure

Step into your very own world of indulgence. A personal retreat to soothe your mood or rejuvenate mind and body. A place of striking beauty and unrivalled quality. Let your senses be inspired...

[eye] see

At the forefront of design, our comprehensive range covers everything from shower rooms to cloakrooms, full suites to en-suites. Representing the ultimate fusion of form and function, not only does the range contain such diverse aesthetic styles to suit all tastes, but also has the flexibility in its design to fill any space beautifully.

[ear] hear

The gentle sound of running water is the perfect catalyst for an environment of tranquillity and invigoration. We listen out for the latest trends to ensure those environments are in tune with modern life. We're also here to listen to you. Our experienced customer services team are on hand to offer full technical and retail support to ensure that every aspect of your experience is pleasurable.

[lips] taste

Our versatile collection offers a broad range of innovative features and aesthetic themes to meet your individual needs. We make it even easier to find your perfect match with our online inspiration tool, where you set the parameters of your taste and budget and we suggest a number of suites that will most suit you and your lifestyle.

[hand] touch

From the carefully considered ergonomics of our taps and handles to the silky smooth glide of our shower doors, every product places superior quality at your fingertips. The superior construction of our products translates into peace of mind for you, as all products are guaranteed for life.

Please see the inside back cover for further details and how to register.

Using less makes much more of a difference

With climate change and sustainability ever-increasing issues on the global agenda, we're rising to the challenge through our commitment to greater water efficiency.

Eleven of our existing WCs have been redeveloped to include new water efficient, low volume, dual flushes.

These eco-friendly products use up to a third less water than the average WC. These products can be identified by looking out for the 'ecosense' symbol in this brochure.

Planning for the future

However, we've not rested on our laurels and have introduced a number of new ecosense products into our bath, shower and tap ranges this year.

These innovations demonstrate our on-going dedication to meeting the growing needs of both the public and the planet!

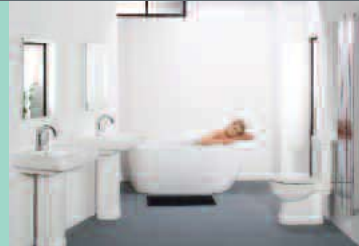

Look out for the 'ecosense' symbol
